PLEASE REVIEW IT CAREFULLY.**

WHEN THIS NOTICE APPLIES

This notice summarizes the privacy practices of the University of Miami Hospital and Clinics, the Anne Bates Leach Eye Hospital, the University of Miami Clinics affiliated with the hospitals, the University of Miami physician practices, and their workforce, and the medical staff, physicians and health care professionals that provide you with treatment and health care services at such locations ("University"). We may share health information about you with each other for purposes described in this notice, including for our joint administrative activities.

OUR OBLIGATIONS

We are required by law to:

- Maintain the confidentiality of protected health information;
- Give you this notice of our legal duties and privacy practices regarding health information about you; and
- Follow the terms of our notice that is currently in effect.

HOW WE MAY USE AND DISCLOSE HEALTH INFORMATION

When you receive services or treatment from the University, you will be asked to sign a consent form in which you permit us to use and disclose information about you in ways that are permitted by the federal privacy law, as summarized in this Notice. However, some kinds of health information are subject to separate special privacy protections under the laws of the State of Florida or other federal laws, so that portions of this notice may not apply. If you receive alcohol or substance abuse services or treatment from our substance abuse treatment program, you will receive a separate notice describing how we may use and disclose and protect the privacy of health information regarding your alcohol or substance abuse treatment. In addition, special rules apply to the results of human immunodeficiency virus ("HIV") tests that identify you or the fact that an HIV test has been performed on you ("HIV test results"). The section below entitled "How We May Use and Disclose HIV Test Results" describes how we may use and disclose this type of health information. Finally, the section below entitled "How We May Use and Disclose Psychotherapy Notes" describes how we may use and disclose notes from psychotherapy counseling sessions in which you participate.

The following categories of activities describe the ways that we may use and disclose health information that identifies you ("Health Information"). Some of the categories include examples, but not every type of use or disclosure included in a category is listed. Except for the categories of activities described below, we will use and disclose Health Information only with written permission from you. If you give us permission to use or disclose Health

Information (including HIV test results and psychotherapy notes) for a purpose not listed in this notice, you may revoke that permission at any time by sending a written request to our Privacy Office at the address listed at the end of this notice.

- a) **For Treatment.** We may use Health Information to treat you or provide you with health care services. We may disclose Health Information to doctors, nurses, technicians, or other personnel, including people outside our facilities or clinics who may be involved in your medical care. For example, we may tell your primary physician about the care we provided you or give Health Information to a specialist to provide you with additional services as appropriate for treatment purposes.
- b) **For Payment.** We may use and disclose Health Information so that others or we may bill or receive payment from you, a government program or an insurance company or other responsible third party for the treatment and services you receive. For example, we may give your health plan information about your treatment so that they will pay for such treatment. We also may tell your health plan about the services that you are going to receive to obtain prior approval or to determine whether your plan will cover the services.
- c) **For Health Care Operations.** We may use and disclose Health Information for health care operations, which are administrative activities involved in operating the University. These uses and disclosures are necessary to maintain quality care when delivering services to our patients and for our business and management purposes. For example, we may use Health Information to review the adequacy and quality of the care that our patients receive.
- d) **Appointment Reminders, Treatment Alternatives, and Health-Related Benefits and Services.** We may use and disclose Health Information to contact you as a reminder that you have an appointment with us. We also may use and disclose Health Information to tell you about treatment options or alternatives or health-related benefits and services that may be of interest to you.

also may notify such individuals about your location or general condition, or disclose such information to an entity assisting in a disaster relief effort.

- i) **Research.** Under certain circumstances, we may use and disclose Health Information for research purposes. For example, a research project may involve comparing the health and recovery of all patients who received one medication or treatment to those who received another, for the same condition. Before we use or disclose Health Information for research, the project will go through a special approval process. This process evaluates a proposed research project and its use of Health Information to balance the benefits of research with the need for privacy of Health Information. We also may permit researchers to look at records to help them identify patients who may be included in their research project or for other similar purposes, so long as they do not remove or take a copy with them of any Health Information.
